

# Kodiak Island Borough Community Swimming Pool

## NUTS & BOLTS

**OPENED:** 2009

**COST:** \$12 million

**AQUATIC SPACE:** 11,000 square feet (not including locker rooms)

**DREAM AMENITIES:** The facility includes a 25-yard competition pool with six lap lanes, a 1-meter diving springboard, and shallow-water areas.

## PROJECT TEAM

**DREAM DESIGNER:**

Councilman-Hunsaker

**ARCHITECT:** ECI/Hyer

**AQUATIC DESIGNER:**

Councilman-Hunsaker

**STRUCTURAL ENGINEER:** BBFM

**MECHANICAL/ELECTRICAL ENGINEER:** AMC

**CIVIL ENGINEER:** DOWL-HKM

**LANDSCAPING:** Earthscape

## PROJECT SUPPLIERS

**ACU-TROL:** Chemical control systems

**AQUA PRODUCTS:** Cleaners/vacuums

**AURORA:** Pumps

**BELL & GOSSETT:** Heaters

**BRADLEY CORP.:** Lockers

**COLORADO TIMING SYSTEMS:** Timing system

**DALTILE:** Tile

**DURAFIRM:** Dive board

**ELLIPTIPAR:** Lighting

**HANOVIA/AQUIONICS:** UV sanitizing system

**LAWSON AQUATICS:** Gutter grating

**PARAGON AQUATICS:** Access rails

**PENTAIR WATER COMMERCIAL POOL AND AQUATICS:** Filters/pumps

**SIEMENS WATER TECHNOLOGIES:** CO2 system

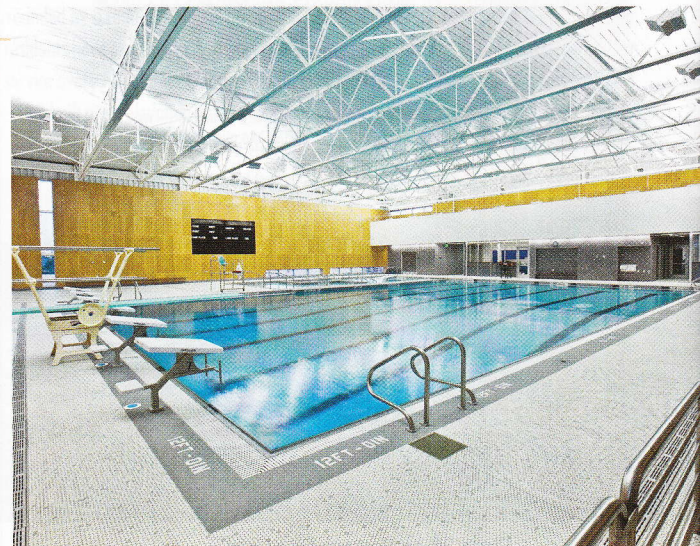

**SR SMITH:** Starting blocks

**TMI SALT PURE:** Chemical control systems, on-site chlorine generation equipment (saline sanitization)

The Kodiak Island Borough Community Swimming Pool features a 6-lane-by-25-yard competition pool, a 1-meter diving board, a 24- to 42-inch-deep learn-to-swim training area, and a toddler wading area with bench seating. With an ADA-accessible ramp and stair entry, high school students and community patrons use the pool for a variety of lessons, fitness classes and special events. While swim team practice is in session, younger siblings and children can enjoy the adjacent shallow water.

The natatorium was built to replace an existing pool. Opened in 2009, it is a resource for local students as well as the growing community. Located on the grounds behind Kodiak Island Borough High School, the pool area features 17,000 square feet of space, including locker rooms.

The Kodiak Island Borough Community Swimming Pool features innovations such as on-site chlorine generation. This newer, saline pool-sanitizing technology costs less to operate, requires less storage space, and minimizes the necessity for deliveries and handling of chemicals. The pool also includes ultraviolet sanitization.

**AQUIONICS**  
UV That Works!

the power in UV technology

**Breathe easy, it's Hanovia UV**

Hanovia UV improves swimming pool water in three ways:

**CHLORAMINE REDUCTION** - Reducing the chloramines that irritate eyes, give an unpleasant smell and damage buildings.

**DISINFECTION** - UV also disinfects allowing you to reduce your free chlorine down to 0.5 ppm in some cases. Even chlorine-resistant pathogens such as Cryptosporidium are easily treated with UV.

**IMPROVED WATER CLARITY** - Medium pressure UV oxidizes organics in the pool water, resulting in improved water clarity. Hanovia systems are compact and can usually be installed within existing pipe work, making installation and maintenance very simple.

**ULTRA POLY ONE COAT**<sup>TM</sup>

*"Do it Once... Do it Right!"*

**Ultra Poly One Coat**<sup>®</sup> is a one-coat system for concrete, plaster, fiberglass and previously painted surfaces.

**NO VOC's!**

- Easy surface preparation - clean and high-pressure wash
- Easy to mix and apply - using standard tools and techniques

**FAST!** Cure time can be as little as 24 hours

15 year warranty

**Call now to try Ultra Poly One Coat<sup>®</sup> on your next project.**
