

# INTERVIEW WITH SHARON SPORMAN AND STAFF OF FRANCISCAN OMNI!

Franciscan OMNI Health & Fitness in Schererville, IN is an MFA Certified Facility, as is their sister facility in Chesterton.

During a recent interview, Sharon Sporman, the Regional Executive Director of Wellness, pointed out that their transition to Salt Pure® water (about a year ago) has been very successful.

*"Not only is it more environmentally friendly, but I also get feedback from patrons about how much better the water feels."*

Sharon is quick to point out that the Salt Pure® water helps to differentiate their facility in the Schererville area and has helped to boost membership.

*"With our good swim lesson programs and other classes together with family time over weekends, some members join specifically for the pool. The addition of Salt Pure® at this facility has provided a revenue boost!"*

Sharon started considering this change over to Salt Pure® around three years back. Michael Sikora, Facilities Manager, stated that it wasn't a hard to decide between the TMI Salt Pure® System and other similar systems. Once he started doing the research, it became obvious that the TMI system was **'better and more reliable'** than the others he looked at.

The fact that TMI provides the equipment with extensive remote support, as opposed to being a local provider, has **'worked out very well.'** The installation was not difficult and **'TMI worked closely with us to iron out the initial bugs and get the system running smoothly.'**

*"The system is easy to maintain. All we do is check it everyday and it seldom needs a lot of adjusting (in comparison to the regular chlorine system we had before). From a customer satisfaction perspective, I could not be more satisfied than I am with TMI support."*

Not only is the addition of Salt Pure® a revenue booster, but it also saves money. Mike Vanni, Maintenance, pointed out that they, **'Now spend about \$2,400 on salt per year, versus around \$10,000 that they used to spend on chlorine each year. They Health Department is more than satisfied with our results.'**

## GET BETTER WATER & AIR QUALITY WITH TMI SALT PURE®!

**Better for sensitive skin!**

**No red eyes!**

**Silky feeling water!**

**No faded swim suits!**

**Salt Pure® Controller  
Salt Pure® Generator  
+ Specialty Chemicals (PMP)  
= Salt Pure® System**

*"My experience with the TMI Salt Pure® system for the past three plus years has been a great one. I'm glad that we selected a company that will work with you and stand behind their equipment and products. The one thing I appreciate the most is their technical support. Whenever we experience instances that we cannot answer it is good to know that they are just a phone call away. We are fully automated through the TMI system and it sure makes pool life a lot easier. If you are looking for a salt system TMI Salt Pure® is the way to go. It is a good feeling to know that we have a system that is one of the best systems available."*

- Maurice King, AquaFit Chestertown Physical Therapy
