ABOUT EVOLUTION

Delivering Health and Well-Being

Evolution Pools & Spas (EPS) is a privately-owned, Western-Canadian pool and spa constructor. We design, engineer, project manage, and build swimming pools, whirlpools, wading pools, and nordic spas. Evolution offers a total start-to-completion package. We do everything from conception to the commissioning of pool systems, including handover and operator training.

We believe in the therapeutic properties of water. With over 20 years of experience, we understand how good design and construction can benefit the well-being of the end user. At EPS, we believe we play a crucial role in delivering a restorative experience for every one of our shared users.

We aim to be the most significant addition to your construction team. We play the long game. For Evolution, this is about building a healthy and fruitful relationship. We want this development to be the first of many that we work on together.

CONSTRUCTION STAFF

Evolution Pools & Spas has over 70 construction professionals to contribute to its projects. Your project will have the benefit of our years of experience and our capacity to meet its project deadlines.

Superintendent

PROFILE

Evolution Pools & Spas

Evolution Pools & Spas is a family-owned business that has been in operation for over two decades. We have a dynamic story, working for leading hotels of the world, elite residential clients, and inspiring companies like Disney and Paramount Studios.

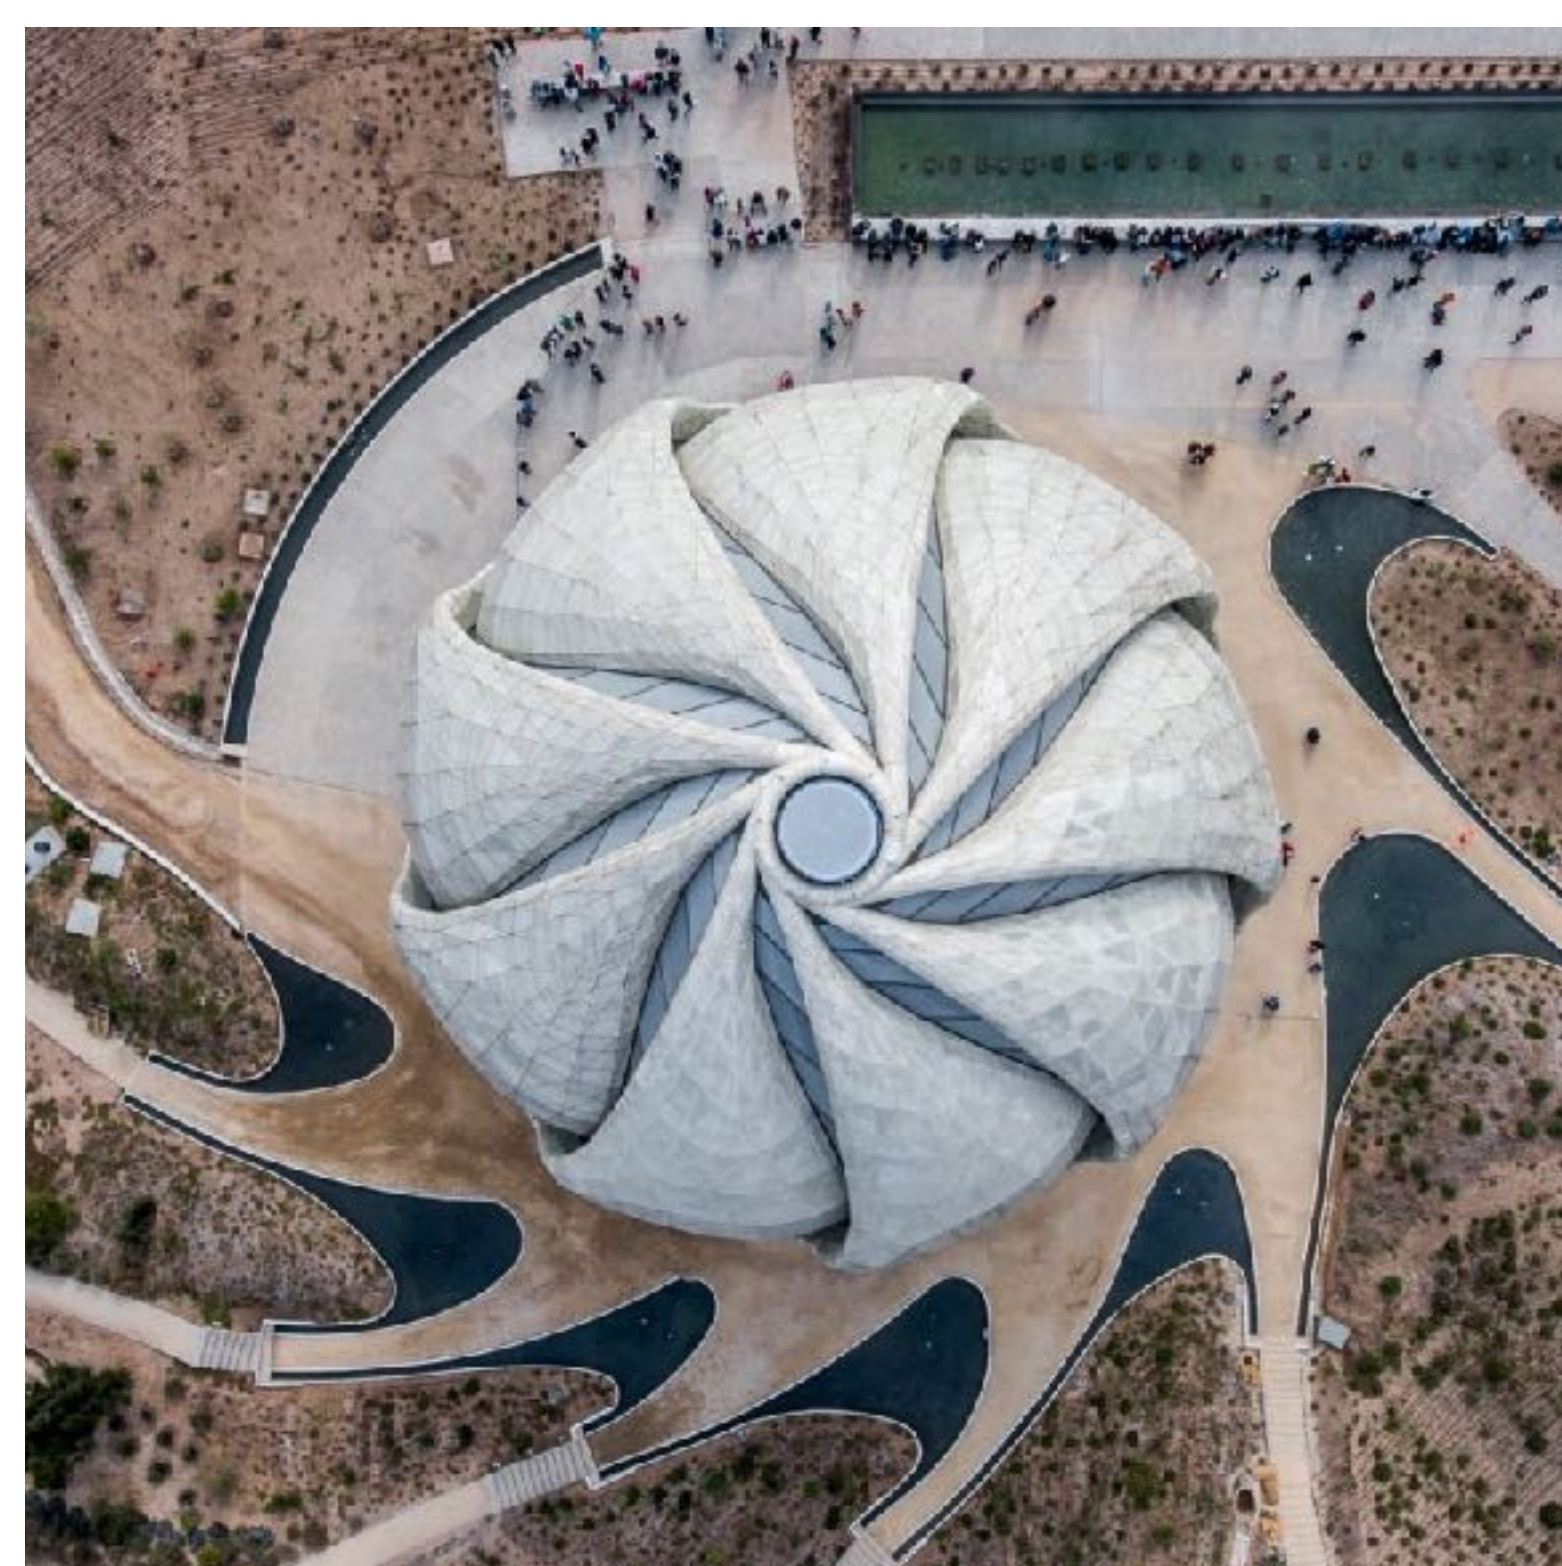

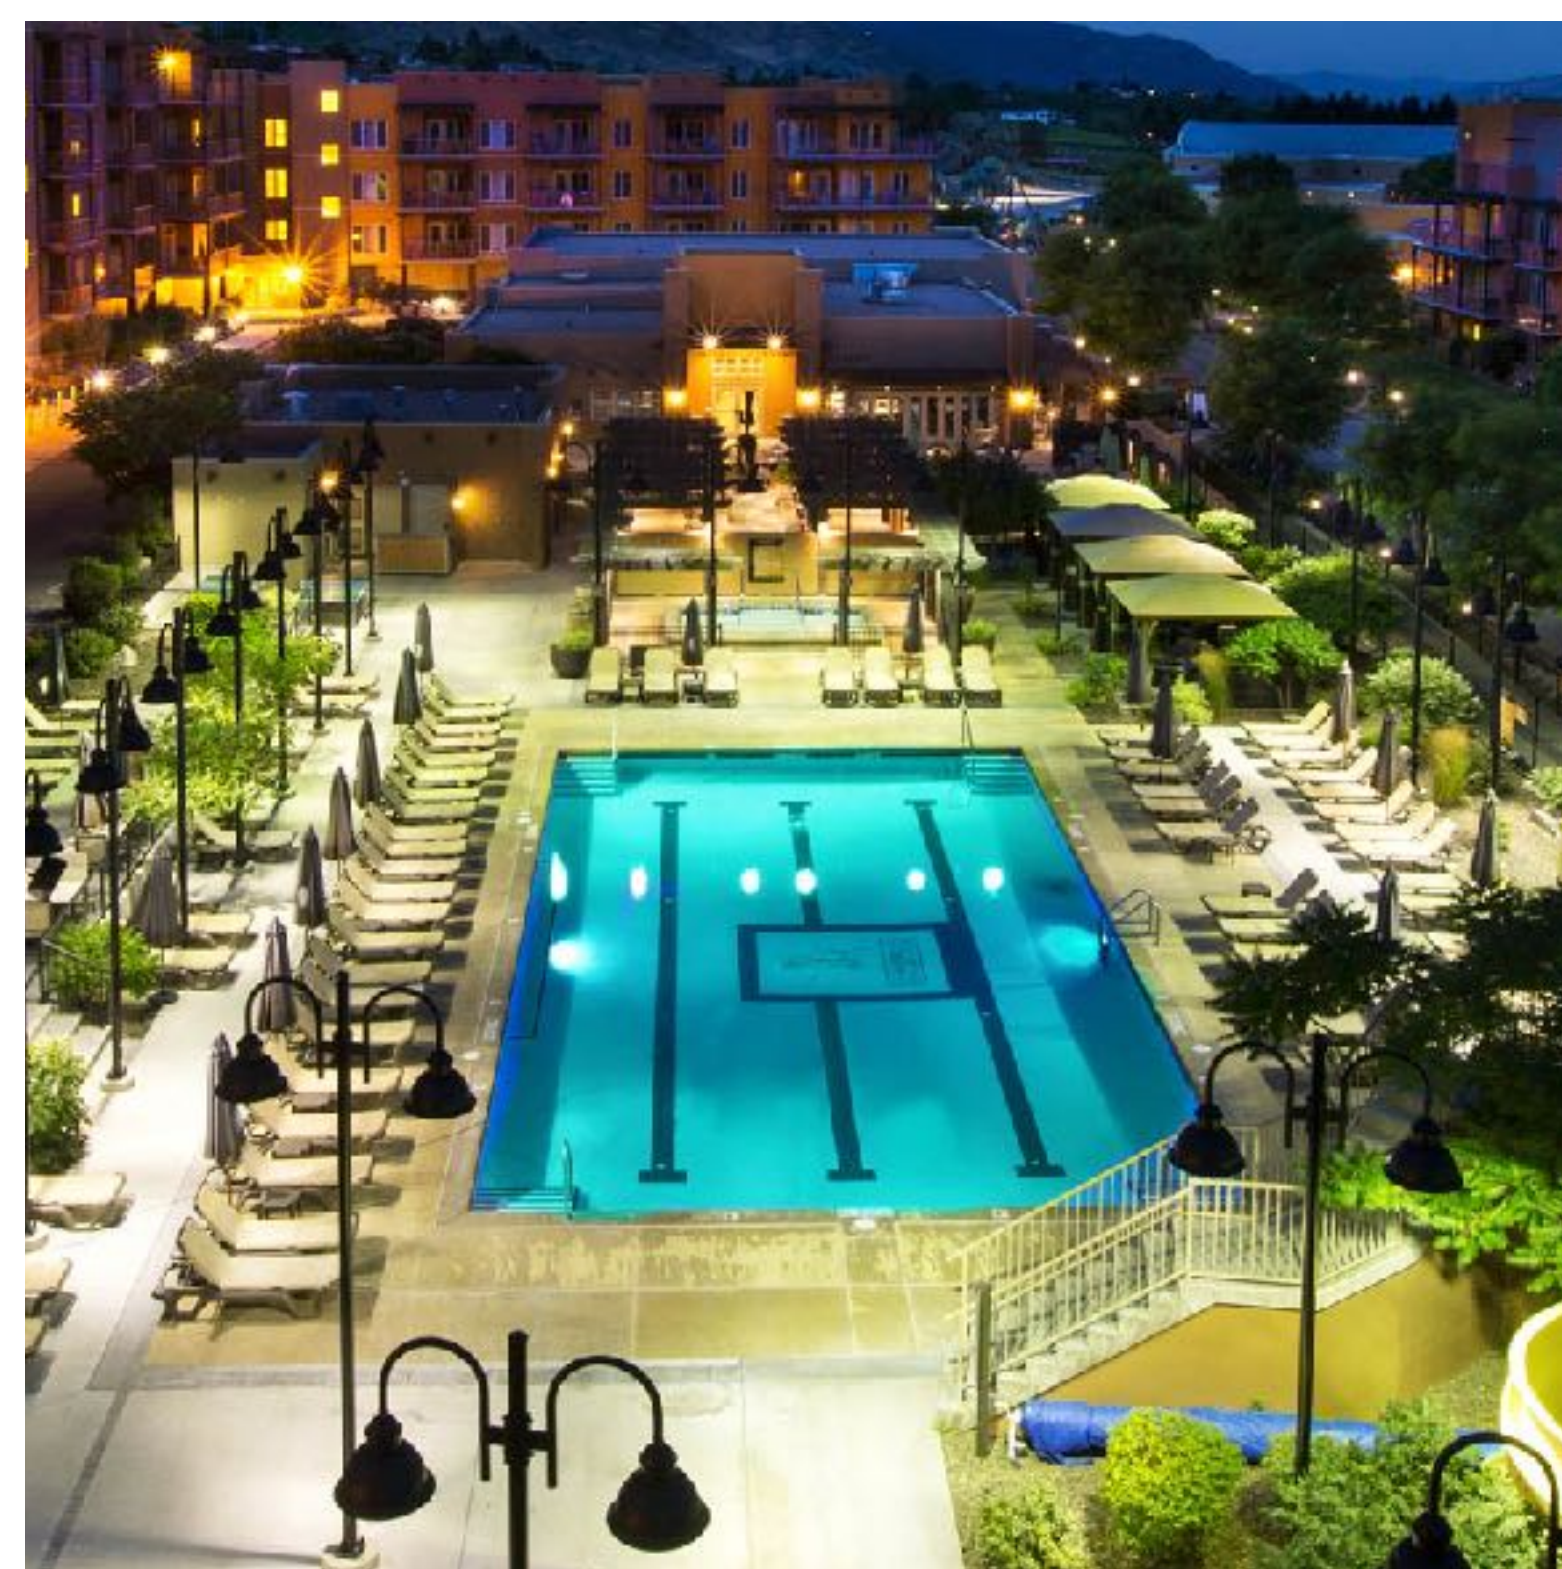

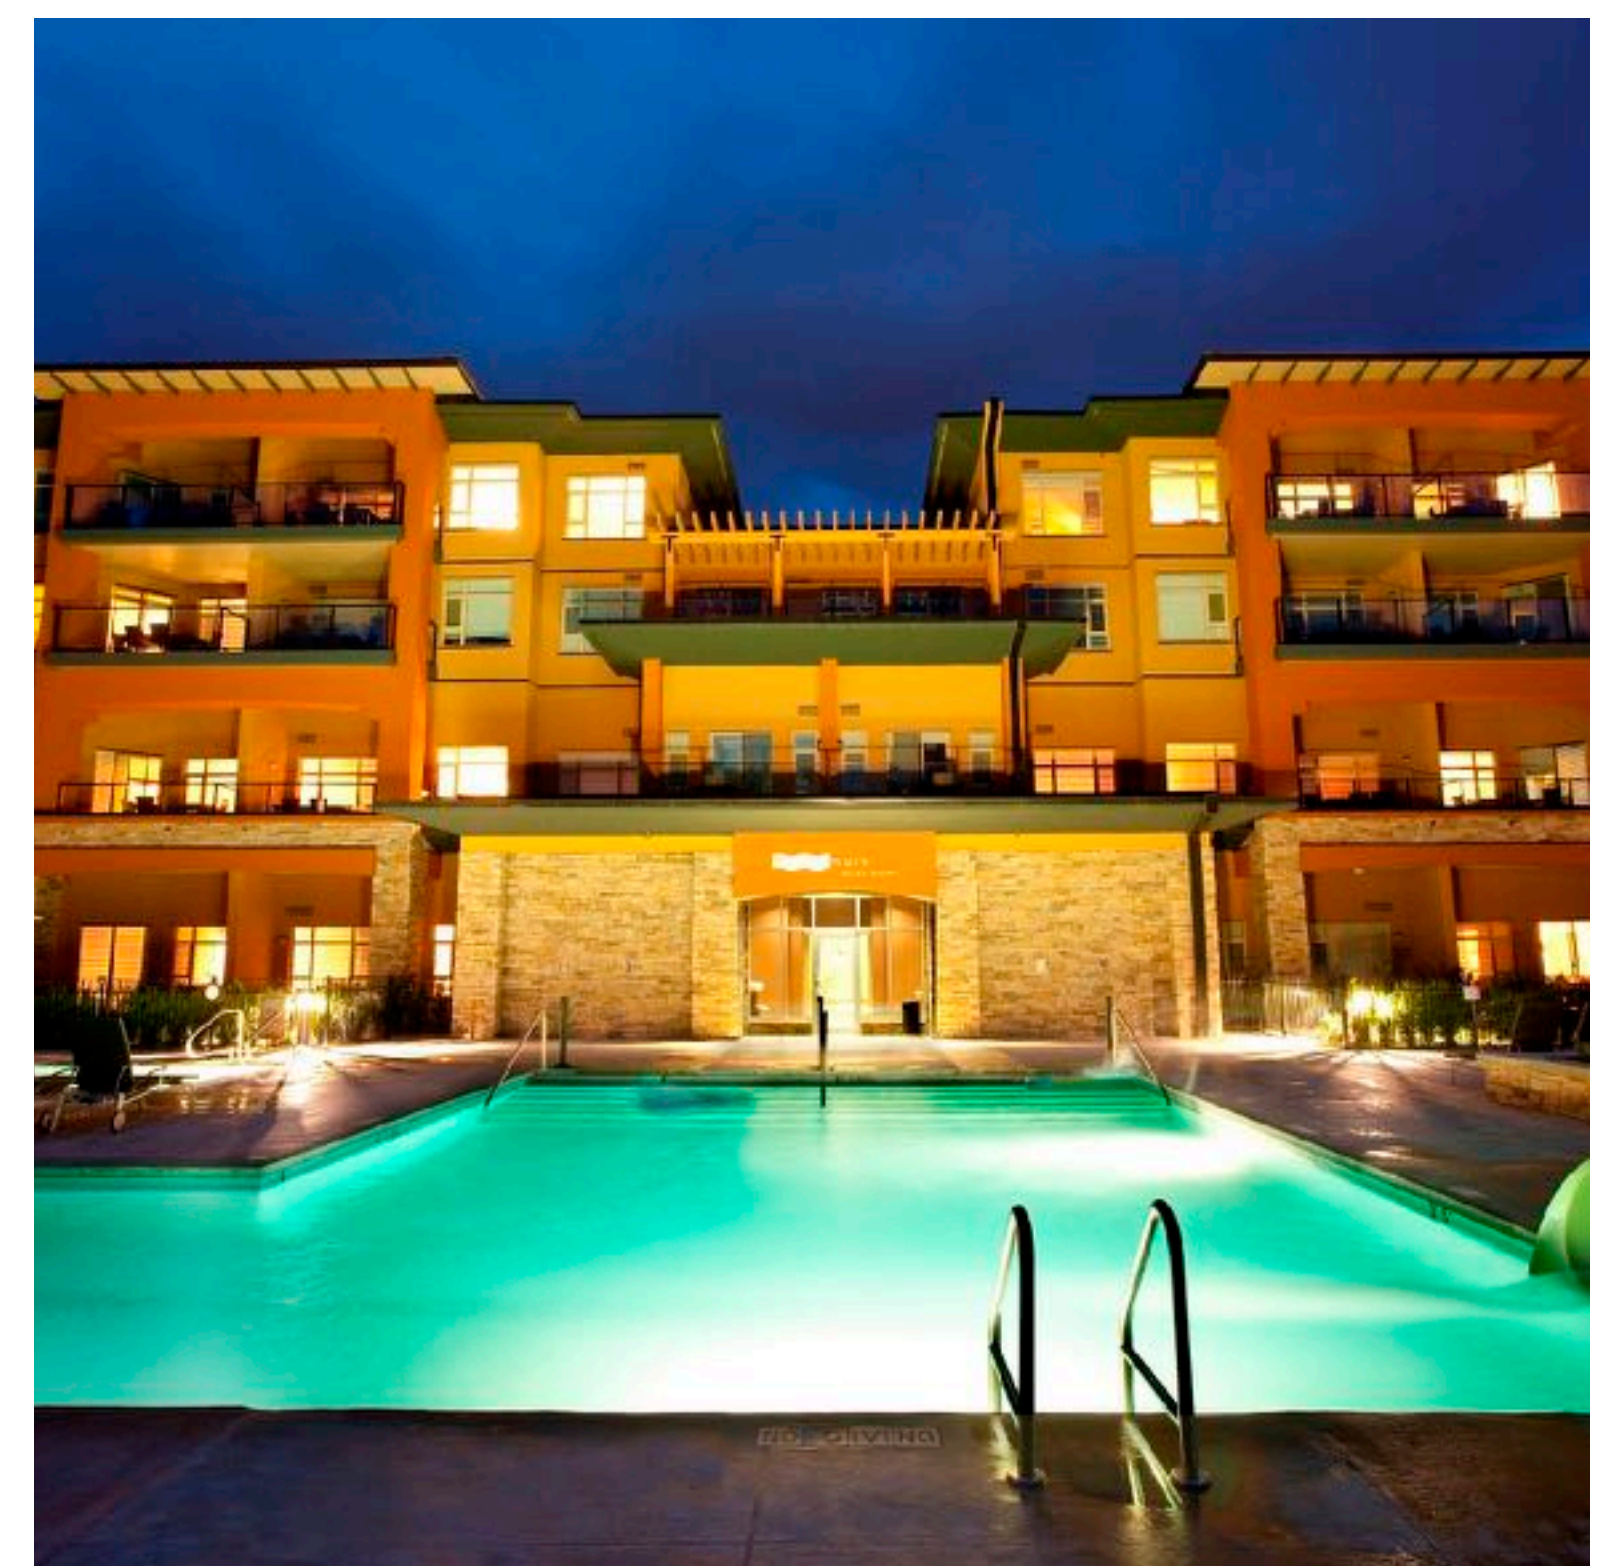

The company started by building residential pools and features for high-end homes, but soon after, built a name as a dominant pool and spa constructor for the hotel industry (Class B pools).

In the last few years, Evolution has made another major shift into Class A projects, building expertise and adding experience in resort and recreational centres.

Regardless of which market we serve, "Your paradise built!" is our motto, which encapsulates our role of service to our clients. With that statement as our true north, we can create any poolscape our clients can envision.

OUR PORTFOLIO

Our team travels throughout North America building amazing water amenities. Our design teams are actually trained by movie studio professionals in the art of faux rock waterfall and landscaping features. Here is a sample of the projects that we've been involved in.

Left to Right: Nk'Mip Resort | Kananaskis Nordic Spa | Watermark Resort and Spa | Spirit Ridge | Elora Mill Hotel and Spa | Millcroft Inn and Spa | Bahá'í Temple
